### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

NPIC J-3389 (9/64)

### SUMMARY

A medium-sized barracks installation with a small-unit training area is located on the northeast edge of Perechin (Figure 1). Rail service is provided by a spur which branches from the Uzhgorod-Turka rail line and terminates at the east corner of the training area. All-weather, hard-surface roads provide access to Perechin, Uzhgorod, and Turka.

The installation (Figures 2 and 3) covers 475 acres and contains at least 118 buildings including 7 administration buildings, 19 barracks, 17 multiple-unit family quarters, 37 single-unit family quarters, 4 general storage warehouses, 6 (including 4 in revetments) ex-

plosives storage buildings, 5 vehicle sheds, 2 vehicle repair shops, and 21 small single-story support buildings.

Facilities include a 400-acre training area, a vehicle park, an athletic field, and a large

25X1D  
The installation was covered by interpret- 25X1D  
able KEYHOLE missions in

25X1D  
There appears to have been an increase in activity between the missions, indicating 25X1D  
that summer training activities were being conducted. The installation is well-suited for the training of security troops and for summer training of reserve militia.

### DESCRIPTION OF INSTALLATION

#### Railroad Service

A branch line runs through the installation, terminating in the training area.

#### Road Service

All-weather, hard-surface roads provide access to Perechin, Uzhgorod and Turka.

#### Administrative and Troop Housing Areas

Area D1 contains 3 permanent multistory administration buildings, 19 permanent multistory barracks, 17 permanent multistory multiple-unit family quarters, and 21 small single-story support buildings.

Area D2 contains 37 permanent single-story single-unit family quarters.

#### General Storage Area

Area E has 4 warehouses and 2 administration buildings.

#### Ammunition Storage Area

Area F has 4 single-story 30-by 30-foot probably revetted storage buildings, 2 single-story 30-by 30-foot storage buildings, one single-story 65-by 30-foot administration build-

ing, one 220-by 55-foot vehicle shed, and one 110-by 40-foot vehicle shed.

#### Equipment Storage/Maintenance Area

Area J has a 750-by 350-foot motor park, two 170-by 35-foot vehicle sheds, one 140-by 30-foot vehicle shed, two 190-by 40-foot vehicle repair shops, and one 65-by 50-foot administrative building.

#### Athletic Field

One athletic field (K) is located in Area D1.

#### Infantry or Combined Arms

#### Field Training Area

Area R contains ground scarring indicative of small-unit exercises with a minimum of vehicle activity.
